

Architectural competition

Organizers:

Union of Architects of Russia

Union of Moscow Architects

Government program for the construction and renovation of schools, calculated up to 2025 year, will allocate huge funds for its implementation. Build School Project competition, which is held within the framework of The 5rd International exhibition "Build School" is aimed to ensure the speedy implementation of the best architectural projects of pre-school and school buildings, and children's sports facilities.

The previous competitions of realized and unrealized projects of pre-school and school buildings in 2017-2020 became the most large-scale in Russia so far.

In 2019-2020, large-scale construction of educational facilities in the regions of Russia and the development of school infrastructure in rural areas will continue. How schools, complexes and kindergartens will look like, how to create a modern multifunctional space, what materials architects use in projects, as well as the best design and construction practices at the Build School 2021 exposition.

Another novelty of the "Build School Project 2021" project is the inclusion of a new nomination "The best solution for the integrated development of the territory and the creation of a favorable environment for children."
